

AMINUR RAHMAN

FRONT END DEVELOPER

☎ +8801755143182 ✉ dev.aminur@gmail.com 🌐 <https://developeraminur.xyz>

OBJECTIVE:

Enthusiastic and detail-oriented front-end developer with a passion for creating visually appealing and user-friendly websites. Equipped with a solid foundation in HTML, CSS, JavaScript and React.js, I aim to leverage my expertise in front-end technologies and responsive design to contribute innovative solutions for enhancing the user experience. Proven ability to collaborate with cross-functional teams and a dedication to staying current with emerging trends in web development. Seeking a challenging position to apply my skills in crafting engaging and high-performance web applications.

SKILLS:

Expertise: HTML, CSS, JavaScript, Bootstrap, Tailwind, React.js

Comfortable: Firebase, JWT, REST API, Axios

Familiar: Material UI, Express.js, MongoDB, Node.js

Tools: Git, Github, Visual Studio Code, Chrome Dev tools, Figma, Surge and Vercel.

PROJECTS:

Hotelhub - Generic Hotel Booking Website

Features:

- **Secure API:** The user's personal information is protected by a JWT token. The user's Private is protected. Only valid users can get API data. Otherwise, they can't access any secure data.
- **Reviews & Rating:** Allow users to read and submit reviews and ratings for hotels they have stayed at. Display a cumulative rating for each hotel based on user feedback.

Uses Technologies: React-router, Firebase and JWS Authentication, Express.js and MongoDB.

TechFirmIT - Tech Services Web App

Features:

- **User Role:** According to the role of the user, the dashboard will show the data, one can load only as much data as it is allowed. According to the end roll, different data will be shown.
- **Payment method:** Added payment method, only HR can make payment, and a user can pay salary only once in a month.
- **Authentication:** I have added login and registration features. You can register by email password. An access token will be generated as soon as the user logs in. Valid users will be checked with that token.

Uses Technologies: React, Tailwind CSS, Sweetalert, Axios, Tanstack Query, Stripe, MongoDB, Express, Firebase etc.
